OUR STATEMENT

Youth unemployment remains a growing issue because many young people struggle to find jobs, build experience, and real world experience. Existing platforms fail to provide these students and youth with personalized jobs.

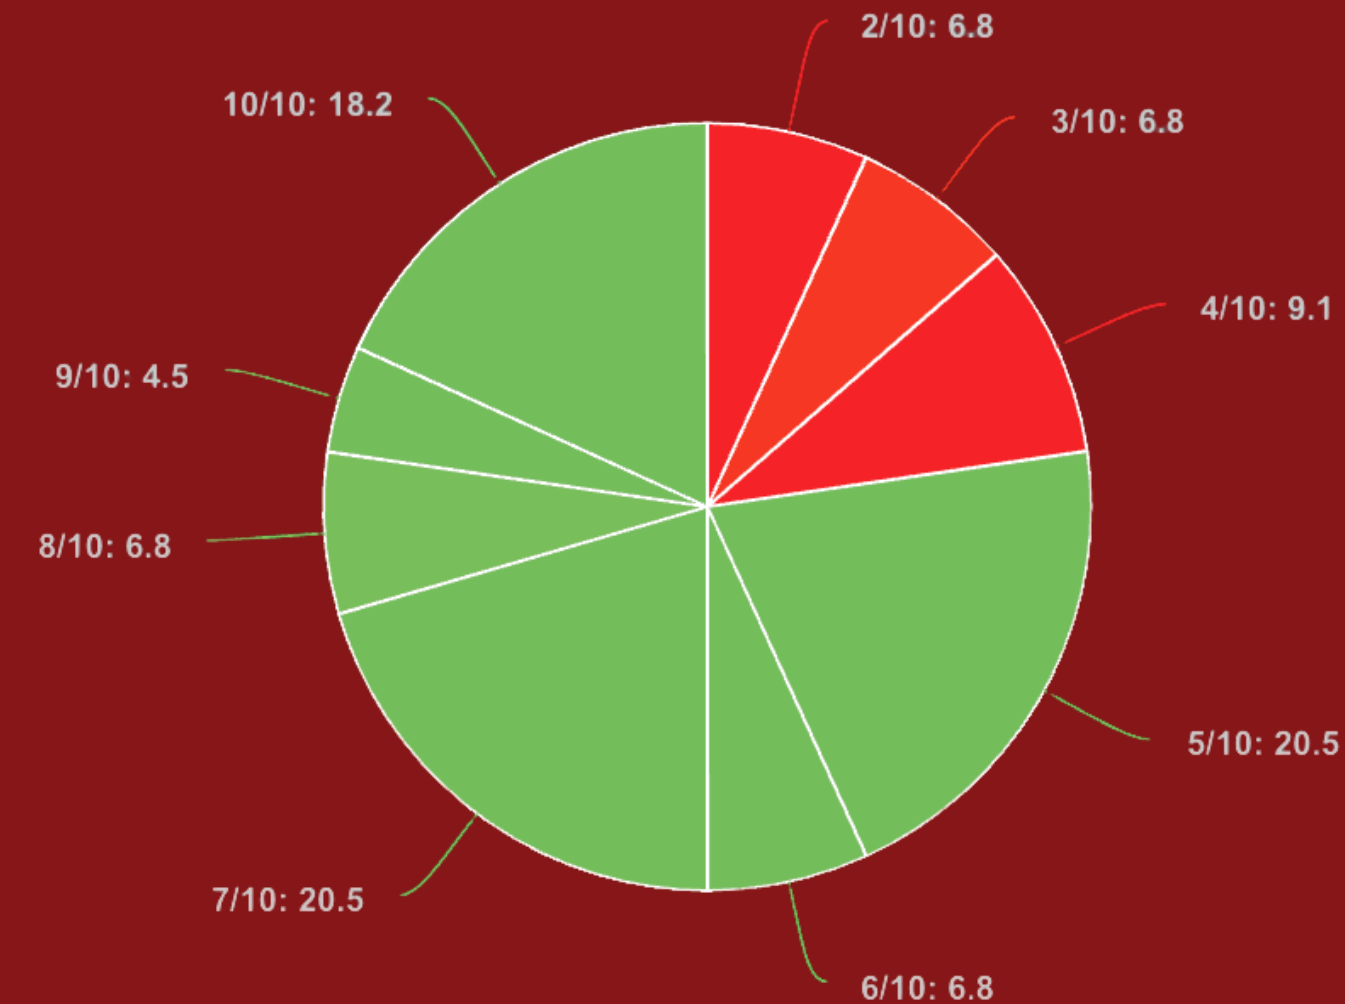

RESEARCH FINDING

72.7% of people have had adverse experiences with common employment apps, such as LinkedIn and/or Indeed

48% of people describe their previous job environments as both mentally and physically overwhelming, overly toxic, & competitive for teenagers

77.3% of people we surveyed believe that age affects your chances to get into a job or internship of a 5 and above from a scale of 1-10

Our GOALS

- **Help teenagers find safe job opportunities**
- **Guide users through job processes**
- **Teaches workplace fundamentals**
- **Builds confidence among teenagers**

SARAH LEE

16 years old

High school junior

Determined but overwhelmed

A flexible schedule with low stress, to gain money, experience, and prepare for college.

Gain WBL hours, build a resume, and gain real-world skills.

USER PERSONAS

IHSAN ALI

19 years old

College Freshman

Motivated and relaxed

Gain more experience, earn more money, network, and make connections

Spoil his girlfriend, save for a new car, and move out into his own apartment

OUR UX DESIGN DECISIONS

User First

Designed around
real people.

Fast & Simple

Get started
quickly and
achieve more.

- Our app prioritizes a **enjoyable and easy experience** for the user.
- Users can quickly **create profiles, build resumes, and track job applications.**
- Creating an account is very fast as that is the first thing you see on the home screen.
- The overall user experience is designed to **reduce frustration** and help people get into **employment successfully.**

OUR UI DESIGN

DECISIONS

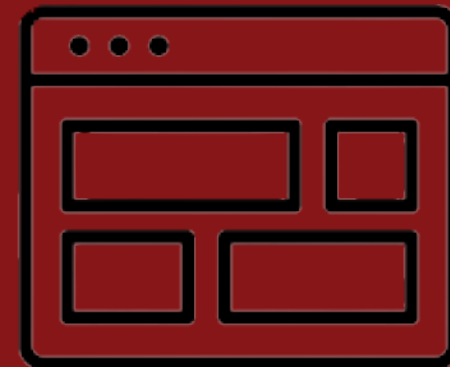

Our app is designed to feel modern and welcoming for young users. The interface uses a clean layout, with clear buttons, organized sections, and easy to read text.

The App features a professional look, consistent icons which minimize clutter.

Color Scheme

Consistency

Design Layout

Font Choice

APP FEATURES

1

Sections that allow you to select certain skills that you specialize in

2

There is a search filter, allowing you to personalize job matching.

3

Buttons that allow you to return to any page

4

Job listings show an “about” description and ways for you to reach out to the employer.

Wireframes/Setup

- 1

Homescreen (sign-in/login page)

Allows users to create an account or log in quickly using email or social sign-ins.
- 2

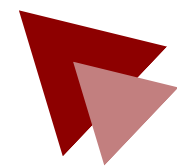

Terms and Conditions page, allows users to know what they are getting themselves into
- 3

Job search page

Lets users browse and filter jobs based on interests, location, and availability
- 4

The wireframs were made using a clean layout with:

 - Clear buttons and icons
 - Simple navigation bars
 - Organized content sections
 - Consistent color schemes
